Boulogne-Billancourt, September 24, 2018

## **Carrefour Group press release**

The difficulties faced by Casino and its controlling shareholder may not justify untimely, misleading and groundless communications.

Carrefour denies having solicited Casino and is surprised that Casino's board of directors would have been submitted a merger proposal that does not exist.

Focused on the implementation of its 2022 transformation plan, Carrefour is reviewing its legal options in order to stop these unacceptable innuendoes.
