Carrefour selected for the Dow Jones Sustainability Index World (DJSI)

This achievement positions Carrefour as one of the five leading global retailers in the area of corporate sustainability.

Carrefour, a retailer with operations in over 30 countries, announced today its selection as an index component of the Dow Jones Sustainability Index World (DJSI), a recognition of its corporate sustainability leadership in its industry.

DJSI, through its Corporate Sustainability Assessment, tracks the Corporate and Social Responsibility performance of over 3,400 publicly traded companies in terms of their economic, environmental and social performances. Only the best performing companies are eligible for the Dow Jones Sustainability Indices. Carrefour is the only French company listed among 12 leading companies in the “Food & Staples Retailing” industry sector.

For Carrefour, social responsibility means offering customers quality products, a diversified food offering, acting and investing to limit the depletion of natural resources, and guaranteeing the sustainability of its products and services. This commitment is carried out by the women and men of Carrefour.

About Carrefour

A global leader and the reference in food retail, Carrefour operates more than 12,000 stores and e-commerce sites in more than 30 countries. Carrefour is a multi-local, multi-format and omni-channel retail Group that employs more than 384,000 people worldwide and generated total sales of 103.7 billion euros under its banners in 2016. Every day, Carrefour welcomes 13 million customers around the world and is actively committed to quality and to more sustainable trade. The Group's Corporate Social Responsibility worldwide approach is built on three pillars: fighting against waste in all its forms, protecting biodiversity and working alongside the company's partners.
